

ERIC ASTOR

Los Angeles based guitarist Eric Astor is making his mark on the jazz scene with his debut CD, *Coolfire*. Featuring driving guitars and Latin rhythms, this album has a style like no other. From the country rock vibe of "Route 74" to the driving Latin beat of "Brooklyn," and the touching acoustic performance of "Forever," *Coolfire* spans genres with something for every listener.

A native of York, Eric has been performing for 17 years. He started out playing in school jazz bands and local ensembles. After continuing his music education at Lebanon Valley College, Eric moved to Los Angeles to pursue a professional career in music.

Coolfire is available at Borders York, and online at EricAstor.com, CD Baby, and iTunes. Eric will be returning to Central PA to perform in May 2009.
